DOMESTIC NEWS. Associated Press Consolidation.

NEW YORK, November 15th.—The nego-

months between the Western Associated Press and the New York Associated Press culminated to-day by a unanimous agreement for ignit management. for joint management. The proposition came from the New York Associated Press, and was accepted by the Board of Directors of the Western Associated Press. The management is placed in the hands of a joint committee—Richard Smith and Walker N. Halderman, representing the Western Associated Press, and Whitelaw Reid, of the Tribune, and Thomas B. Connery, of the Herald, representing the New York Associated Press. Charles A. Dana, of the Sun, was elected Chairman. The committee entered upon their duties this afternoon. A further meeting will be held to-morrow, when a plan of service will be adopted. The Western Associated Press has since the termination of the contract between the service. Backache, Screness of the Chest tion of the contract between the associations, perfected a cable service which has proved perfected a cable service which has proved to be superior in many respects to that of the New York Association, and also organized a news service in the East. The work of re-adjustment will continue until all the differ-Tooth, Ear and Headache, Frosted ences are disposed of, and there will be but one general service. A new contract will be made with the Western Union Telegraph

New York, November 15th .- A package which cught to have contained diamonds to the amount of about \$30,000, shipped on board the City of Chester, and consigned to the firm of Louis Strasburger & Co., Maiden with paper. The package was in a rather disproportionately large wooden box, wrapped the seals were spparently intact. It was received at the public stores in Washington street in the condition in which it was when opened. The purser of the steamship testitified that he received the wooden box, which was in suspiciously bad order. He hesitated to receive it, but after having concluded to receive it deemed it indispensable to cover it

with a strong paper wrapper, which he sealed in order to increase its safety. The Disaster on the Alton Road. An Important Confession. CAIRO, November 15th, -Suleiman Daoud was before the Prosecuting Commission today. He confessed to giving the order to fire Alexandris, after having received a pre-emptory command from Arabi Pasha. As the conflagration did not at first appear to be general, Arabi Pasha sent orders through Mahmond to fire more places. Suleiman also states that Arabi Pasha, on the 12th of July, ordered them to take soldiers to Ramleh Palace and murder the Khedive. While on the road to execute the order he met the President of the Chamber of Notables, who pre-vailed on him to return and remonstrate with Arabi Pasha. Nouri Bey, the officer who had charge of the troops at Ramleh Palace, corroborates Suleiman's statements.

Felix Gillet, of Nevada City, claiming that the extermination of in sect pests is both necessary and practicable.

An essay by W. J. Jessup was read on the importation of fiew varieties, and why it should be stopped. He claimed that nearly all the insect pests in California had been imported, including the phylloxera, woolly apis and the cottony cushion scale, to which would be added, if importation was not stopped, the curculio and the black knot. A discussion followed. Haines, of Santa Clars, concurred with the peaker, but said it would be difficult to prevent importations legally. Unless the pests e deterred we must educate the people Hatch stated that experience is against the advantage of imported trees, and related an instance showing the costliness of cheap importations. Professor Dwinelle related the effective action in Riverside, in not only practically prohibiting infected stock, but stock from infected districts, by means of a Committee of Safety, which bought and burned all suspicious importations. All State officers, with the exception afternoon, in order to have a full meeting beof Supresse Jodges, held for a term of four Supreme Judges serve for twelve festival.

Members of the Legislature, excepting hold-over Senators, serve for two years. The question of hold-over Senators is yet to be determined. County officers, with the exception of Assessor and Superintendent of Schools serve for two years. The Assessor and Superintendent of Schools hold for a term of four years. City and township offi cers hold for two years. The next general election will be held in 1884, when members of Congress, members of the Legislature, and county officers, including Superior Judges, will be elected. The term of Superior Judges is six years, but under the new Constitution the term was shortened one year, as was also that of all State officers.

COAST AND STATE.

The Reno Gazette says the White Plains well is down 900 feet. At 775 feet they got a streak of salt water. The water is getting better with depth. They have four streaks of water in all. It flows out over the top of the pipe. Mr. Chapin thinks of going down 2,000 feet before he stops. The east of treating free gold ores in

twenty-stamp mills on the Pacific coast during the year 1877 was \$20 per ton. In 1878 it was reduced to \$6 per ton, and in 1879 to \$4 per ton. In some districts the cost now ranges from \$1 25 to \$1 50 per ton only, which shows remarkable progress in the right direction. Sheriff Tompkins was asked by a Nevada

City Transcript reporter as to whether the Oregon boots had been removed from Dorsey and Patterson, as the latter had petined. The plan is to set the milk and take the cream off for butter, or other purposes, and then enrich this impoverished milk by adding any fatty substance, such as butterine, oleomargarine or any oil which is not rank enough to make an unpleasant flavor. Now comes the swindle! This bogus mixture is turned out in competition with genuine cream cheese. This should be remedied by stringent laws against adulteration of food—un-

The Dayton Times says: The cattle disease, blackleg is caused by a small cane-shaped parasite which enters the blood usually through the digestive organs. This animalcule was not at first supposed to be dangerous to man, but it is of a very low order and changes its habits of life readily. Rose Aguero, a Mexican woman, wife or mistress of Felippe Aguero, living in South San Francisco, on Tenth avenue, was assaulted by Felippe Tuesday afternoon. At that hour she ran into the house of a neighbor, screaming, and told them that her husband was drunk and had attempted to murder her, beating her on the head with a soda-water bottle, and, pulling up her clothes, had tried to inflict a wound on her person with a razor. Felippe was arrested by officers Eastman and O'Connell and charged at the south district stationhouse with an assault with a deadly weapon. The woman presented a terrible sight. One eye was closed completely, the chin was covered with a plaster, which, when removed, disclosed a gash, and there were several severe cuts on the back of her head. Her face, on one side, was considerably swollen.

At the meeting of the Geographical Society of the Pacific Coast Tuesday evening, the Secretary, C. Mitchell Grant, read a paper on the discovery of America by the orsemen. He said that it could not be determined with certainty at what part of the American coast they landed, but from the data which we possess it is fair to assume that their first landing was at Nan-tucket, one degree south of Boston, the second in Nova Scotia, and the third in Newfoundland. General George W. Cullen, Vice-President of the New York Geographical Society, made a short address, in he gave reasons for he ieving that the tower of Nantucket was not a relic of the Norsemen, but a mill which had been erected. He also related the progress the Geographical Society in New York had made, untill now it had a membership of 1,500. He hoped that the Society which had been organized here would be as suc cessful. There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting o ourning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear or the color will be of a will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
